

AURORA ENVIRONMENTAL EQUIPMENT CONSULTANTS L.L.C.

Overview

Aurora Environmental Equipment Consultants

A leading consultant group of sales, design, and installation professionals in solid waste and recycling compaction equipment is here for you. *Our team of partners has a combined experience level over 77 years in waste and recycling solutions and we are a leader in technical innovations and solving customers' environmental equipment disposal needs.* As part of our commitment to you, we offer complete turn-key design, costing, and installations of environmental equipment, extended service agreements, waste and recycling manufacturer trained installation crews, and cutting edge training provided in-person, via DVD, and web based formats.

National Account Program

When you do business with AEEC through our National Account Program, you team with industry experts dealing exclusively with your needs. Your partnership with our team allows you access to a wealth of information, both now and for the future. As your business grows, we are there to support you. We have a complete field based National Account Installation Group focused on handling your day to day needs. In addition, these individuals are backed up by an internally based and focused Sales, Marketing, and Design Department, and complete Internet based Web Sales, Support, and Training interface.

What to Expect Next

Included in this package of information will be various training and preventative maintenance documents to make your life easier through the use of your new solid waste and/or recycling equipment. The information contained in this package is based on information provided by you and in some cases by a survey performed by one of field Installation Partners. All sites will be reviewed to assure compliance with any OSHA and/or ANSI Standards.

Also for your convenience, you will find enclosed a sample Fuse and Circuit Breaker Chart for most manufacturers' equipment motors and a Wire Sizes Chart. This to assist your local electrician in the installation of any quick disconnect electrical box.

We once again thank you for your interest in Aurora Environmental Equipment Consultants. We are there for you and your daily solid waste and recycling removal needs. Please feel free to contact us for any reason. AEEC and You, our Valued Customer, *a Partnership for the Future!*
